## Premier established as major PRINCE2 Project management training provider within the healthcare industry

*Providing successful PRINCE2 training to well over 105 Project Management delegates within the NHS*

### Industry overview

Premier have established themselves as the preferred provider of accredited PRINCE2 project management training within the healthcare industry. With several high profile NHS organisations already on Premier's client list, we have strengthened our links within the field of healthcare through the delivery of successful and effective training solutions.

### Business need

The requirement for qualified project managers within the healthcare industry, especially the NHS, is vital when ensuring the success of any project. Successful project management training assists organisations in improving their processes through the adoption of best practice, helping staff develop their professional skills and improve performance. PRINCE2 is widely recognised as the de-facto standard in structured project management methodology and is therefore the project management training technique of choice for all of our NHS clients.

### Solution

Premier are approved to provide accredited PRINCE2 training within the London cluster by NHS Connecting for Health and subsequently we are the ideal supplier of project management training to many NHS clients. To date Premier has successfully delivered PRINCE2 project management training to over 105 NHS staff from a variety of organisations including: Barts and the London NHS Trust, West London Mental Health NHS Trust and Hammersmith and Fulham Primary Care Trust, amongst many others.

The five day PRINCE2 foundation and practitioner course has been delivered as both public scheduled and private company courses. All training can be delivered either at Premier's central London headquarters or at a client site, utilising our XSpace mobile classroom unit, subsequently minimising unnecessary downtime.

### Results

By providing effective accredited PRINCE2 courses Premier have established themselves as a major supplier of choice for project management training solutions within the healthcare industry.

Our endorsement by NHS Connecting for Health and number of NHS clients is testament to our expertise and the level of quality with which every course we deliver is conducted.

By providing accredited PRINCE2™ project management training, Premier assists organisations in improving their processes through the adoption of best practice and helps staff develop their professional skills and improve performance.
