

HeART*

HeART is an online e-Portfolio toolkit, developed specifically to manage appraisal, revalidation and education for the nursing and midwifery workforce. It can help you to ensure that ALL healthcare professionals are fully trained, highly skilled and fit to practice.

The Product

Designed for nurses, midwives and administrators, HeART is feature rich, intuitive and easy to use. It caters for the diverse requirements of ALL staff by meeting the needs of individual users and groups in one highly configurable system. Processes and workflows are standardised to ensure quality, robustness and consistency.

Users can collate evidence and reflect against the NMC Code within the system. It contains NMC templates that along with supporting documentation can be downloaded if requested for an NMC audit. HeART will always remain compliant with NMC requirements.

Real-time dashboards and reporting make it simple to keep on track with users' progress, conduct appraisals and report on outcomes.

HeART can help facilitate the improvement and delivery of high-quality patient care by enabling you to ensure that ALL healthcare professionals are fully trained, highly skilled, up-to-date and fit to practice.

A mobile app is available across all devices. It ensures anytime, anywhere access to securely upload and reflect on CPD and evidence which then seamlessly integrates with the user's HeART portfolio.

Key Features

PORTFOLIO OF EVIDENCE

Collate and reflect on evidence and CPD. Access and complete PDPs. Private portfolio to share at appraisal.

REVALIDATION READY FUNCTIONALITY

Easy to build portfolio. Third party confirmation and PDD. Revalidation checklist.

STREAMLINED ONLINE APPRAISAL PROCESS

Focused appraisal forms and progress. MSF tool. Reflection, discussion and confirmation for NMC registrants.

ACCESSIBLE TRAINING AND EDUCATION

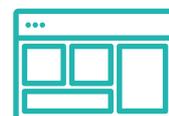

Full training record. Integrated LMS to deploy, manage and report on training. e-Learning modules available.

DYNAMIC APPRAISER FUNCTIONALITY

Review portfolios and conduct appraisals. Manage appraisee meetings and progress. Drill down appraiser dashboard.

ORGANISATIONAL APPRAISAL MANAGEMENT

Manage users, appraisals, revalidation and education progress. Real-time dashboards and filtered reporting.

The Benefits

SUPPORT

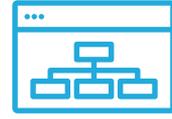

Telephone, email and ticketed support, in-system knowledge hub and help text. Face-to-face, online and video training available for system administrators and users.

SECURITY

ISO27001 accredited, GDPR compliant, 100% IG Toolkit compliant, high level security with SSL data encryption, Tier 3, UK datacentres and regular penetration testing.

INTEROPERABILITY

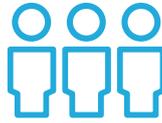

Systems intrinsically interlinked to share information. Fully aligned with GMC/RST/MIPS/NMC guidelines. Interface with third party systems including GMC Connect and the MAG form.

TECHNOLOGY

A single platform solution. Material design framework for optimised user experience. Product roadmap of system improvements/new functionality, monthly release cycle and webinars for clients.

USER GROUPS

Collaborative working with clients. Frequent user groups to gain client feedback on, and input into, product developments, feature enhancements, road map priorities and service optimisation.

MOBILE APP

Accessible across all devices anytime, anywhere. Securely upload and reflect on CPD and supporting information which then seamlessly integrates with system portfolio in real-time.

"HeART is the only way to manage appraisal, revalidation and education for healthcare professionals. It meets all of our needs in one easy-to-use system and Premier IT really know their stuff!"
