

Centric CPD*

CentricCPD is online CPD software that automates the management, administration and reporting of your Continuing Professional Development programme.

The Product

CentricCPD provides a structured framework to help your employees or members maintain the skills and knowledge they need to stay compliant in, and ahead of, their profession. It is an accessible, adaptable and affordable, paperless online system.

CentricCPD empowers users to manage their own learning, guiding them through a full professional development cycle. They can generate their own Personal Development Plan (PDP) and track progress towards meeting objectives and goals. As a user completes CPD they will produce a portfolio of evidence. CentricCPD includes a mobile App to help users balance learning around a busy schedule.

For your organisation, CentricCPD helps to streamline and reduce the costs of administering your CPD programmes, automating processes wherever possible. This could be sharing resources/events or using broadcast functionality to send communications to specific groups of users. Administrators can also switch into user accounts to provide support and training.

The flexible, configurable nature of the system gives the opportunity to modernise your professional development programmes and increase engagement in CPD, increasing your availability to work on strategic improvements rather than routine administration. Comprehensive, real-time reporting makes it easier to demonstrate professional compliance to governing bodies and quality assurance measures are in place throughout the system.

Key Features

USER LED PROFESSIONAL DEVELOPMENT

Guides through a full professional cycle of reflection, planning, actions, outcomes and evaluation.

PDP LINKED TO OBJECTIVES

User generated PDP linking evidence and reflection to organisation objectives and learning frameworks.

PORTFOLIO OF CPD EVIDENCE

A portfolio of all personal/shared events, activities and resources, created as CPD is completed.

AUTOMATED ADMINISTRATIVE PROCESSES

From configurable frameworks and objectives to shared resources/events and targeted communications.

REPORTING TO DEMONSTRATE COMPLIANCE

Extensive real-time, dynamic reporting to demonstrate compliance and quality assurance with ease and on demand.

MOBILE APP

Available across all devices to securely upload/reflect on CPD and evidence then upload to a portfolio anytime, anywhere.

The Benefits

SUPPORT

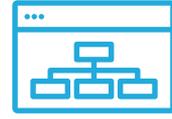

Telephone, email and ticketed support, in-system knowledge hub and help text. Face-to-face, online and video training available for system administrators and users.

SECURITY

ISO27001 accredited, GDPR compliant, 100% IG Toolkit compliant, high level security with SSL data encryption, Tier 3, UK datacentres and regular penetration testing.

INTEROPERABILITY

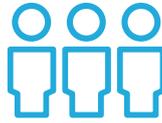

Systems intrinsically interlinked to share information. Fully aligned with GMC/RST/MIPS/NMC guidelines. Interface with third party systems including GMC Connect and the MAG form.

TECHNOLOGY

A single platform solution. Material design framework for optimised user experience. Product roadmap of system improvements/new functionality, monthly release cycle and webinars for clients.

USER GROUPS

Collaborative working with clients. Frequent user groups to gain client feedback on, and input into, product developments, feature enhancements, road map priorities and service optimisation.

MOBILE APP

Accessible across all devices anytime, anywhere. Securely upload and reflect on CPD and supporting information which then seamlessly integrates with system portfolio in real-time.

"CentricCPD provides a structured framework to help your employees or members maintain the skills and knowledge they need to stay compliant in, and ahead of, their profession."

Simon Monkman
Premier IT Managing Director

About Premier IT

Premier IT: specialists in workforce planning, development and performance software for the healthcare sector.

We provide market leading solutions to over 200 clients in the healthcare sector spanning the primary, secondary and independent healthcare landscape.

Our services cater for the needs of all healthcare professionals; from consultants, doctors and GPs to nurses, midwives, and care support staff.

We help our clients ensure they have a team with the right skills, in the right place, at the right time and achieve the right outcome for both their patients and organisation.

Right skills.
Right place.
Right time.
Right outcome.
