# Premier IT

e-Learning*

A full suite of off-the-shelf e-Learning modules, developed in collaboration with the healthcare sector. Content can be hosted on your existing LMS or our user-friendly Learning Management System, where it can also be seamlessly integrated into your appraisal, revalidation and training systems.

The Product

Our catalogue of over 130 off-the-shelf e-Learning titles are designed to help you tackle mandatory requirements for all groups of healthcare professionals from those completing the Care Certificate or Junior Doctors' Induction programmes to those who need CQC compliance training or statutory and mandatory training based on their specific role.

Modules can be customised to include organisation specific information and content is focused around best practise learning methods to ensure that users remain engaged, absorb information and are tested on their knowledge.

Premier IT's SCORM complaint Learning Management System (LMS) can be used to deliver learning, analyse outcomes and measure success.

Learning can take place anytime, anywhere via responsive mobile content and users can save progress along their unique learning pathway, returning to complete material when it suits them. Automated course assignment and self-registration eases administration time and costs while intelligent reporting helps to keep you up to date and compliant.

The LMS can sit as a module within a PReP, HeART or Centric CPD system from which users will be able to launch content directly, update personal development plans and automatically record scores/completion.

Key Features

OVER 130 TITLES AVAILABLE

Full range of subjects available from Blood Transfusions and Infection Control to Conflict Resolution.

CUSTOMISABLE FOR YOUR ORGANISATION

Information and images specific to your organisation can be combined with off-the-shelf subject matter.

MULTI-DEVICE LEARNING ON DEMAND

Anytime, anywhere access via all devices leading to a better user experience, engagement and completion record.
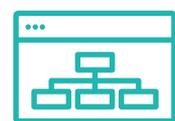

ENGAGE AND RETAIN KNOWLEDGE

Content developed to engage users in learning/increase retention with simple animations, content revision and tests.

VALUE ADDING LMS

Deliver learning, analyse outcomes and measure success/compliance with our SCORM compliant LMS.

INTEGRATE WITH EXISTING SYSTEM

Integration with any PReP, HeART or Centric CPD system ensures automated updates and single system user view.
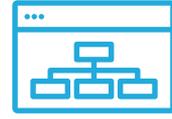

Premier IT

The Benefits

SUPPORT

Telephone, email and ticketed support, in-system knowledge hub and help text. Face-to-face, online and video training available for system administrators and users.
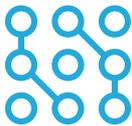

SECURITY

ISO27001 accredited, GDPR compliant, 100% IG Toolkit compliant, high level security with SSL data encryption, Tier 3, UK datacentres and regular penetration testing.
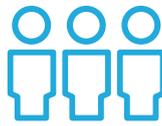

INTEROPERABILITY

Systems intrinsically interlinked to share information. Fully aligned with GMC/RST/MIPS/NMC guidelines. Interface with third party systems including GMC Connect and the MAG form.

TECHNOLOGY

A single platform solution. Material design framework for optimised user experience. Product roadmap of system improvements/new functionality, monthly release cycle and webinars for clients.

USER GROUPS

Collaborative working with clients. Frequent user groups to gain client feedback on, and input into, product developments, feature enhancements, road map priorities and service optimisation.

MOBILE APP

Accessible across all devices anytime, anywhere. Securely upload and reflect on CPD and supporting information which then seamlessly integrates with system portfolio in real-time.

"Premier IT's e-Learning solution has perfectly satisfied our requirement to train all clinical staff, while using far less resource than before."

Amy Gass, St George's Healthcare NHS Trust

About Premier IT

Premier IT: specialists in workforce planning, development and performance software for the healthcare sector.

We provide market leading solutions to over 200 clients in the healthcare sector spanning the primary, secondary and independent healthcare landscape.

Our services cater for the needs of all healthcare professionals; from consultants, doctors and GPs to nurses, midwives, and care support staff.

We help our clients ensure they have a team with the right skills, in the right place, at the right time and achieve the right outcome for both their patients and organisation.

Right skills.
Right place.
Right time.
Right outcome.
